ACCESS DISCREETKIT LTD CONTRIBUTOR ENGAGEMENT CHARTER & NDA

1. The Mission

You are joining DiscreetKit at its most critical stage: Day One. We are not just building a delivery service; we are building a privacy infrastructure for health. We exist to remove the embarrassment, judgment, and stigma that stops people from getting the care they need. By signing this, you are joining a team that values Speed, Privacy, and Empathy above all else.

2. The Relationship

You are joining us as a Voluntary Contributor. We are currently a pre-revenue, bootstrapped startup. This means there is no fixed salary right now. Instead, we offer a platform for you to build high-impact work, gain direct operational experience, and be part of our founding story.

What You Get from Us:

Portfolio Rights: You have the right to showcase the work you do here in your personal portfolio (once the product is public).

First Right of Hire: As we scale and raise capital, active Contributors get first priority for paid full-time roles.

Reference & Reputation: The Founders commit to providing detailed, high-level recommendations and referrals for your future career steps.

Commissions (Where applicable): Specific roles (like sales/growth) may be eligible for performance-based commissions as defined in separate memos.

3. The Code of Silence (Confidentiality)

We deal with sexual health. Privacy is our product.

User Data is Sacred: You may never, under any circumstances, share, save, or discuss customer data (names, locations, orders). A breach here is not just a firing offense; it is a legal one.

Trade Secrets: Our strategy, partner lists, code, and unreleased designs are confidential. Keep them inside the Circle.

4. Intellectual Property (Who Owns What)

To build a company that can scale and protect itself, the company must own what it creates.

Assignment: Any code, design, copy, or strategy you create specifically for DiscreetKit belongs to Access Discreetkit Ltd.

Why? Investors and partners require us to have clean ownership of our tech and brand. This protects the platform you are helping to build.

5. The "No Hard Feelings" Clause

We respect your time and freedom.

Leaving: You can step back at any time. We just ask for a quick heads-up so we can hand over your tasks.

Removal: We reserve the right to remove contributors who are inactive or violate our values (especially regarding privacy).

6. Acceptance

I understand that I am contributing to build something meaningful. I agree to keep DiscreetKit's secrets safe and assign the rights to my contributions to the company.

Signed:
