The Chief Pharmacist / Manager
AlphaCare Pharmacy
Accra, Ghana

PROPOSAL FOR STRATEGIC FULFILLMENT PARTNERSHIP

Dear Manager,

We are writing to propose a strategic partnership between Access Discreetkit Ltd and AlphaCare Pharmacy.

The Invisible Customer:

Every day, young people walk past your pharmacy, needing HIV tests or contraceptives, but they don't come in. Why? Because they are terrified of being seen. With 15,290 new HIV infections last year and 60% of users preferring confidential testing, this stigma is blocking millions in sales.

The Solution: We Bring Them to You.

DiscreetKit is the digital bridge. We let customers order anonymously online, and we route those orders directly to you. We are the 'Uber for Privacy.'

Partnership Benefits:

- New Revenue Stream: We capture the young adult market (including 635,000+ tertiary students) who are currently too shy to buy. You get the sale; we handle the customer.
- Zero Logistics: Our unbranded riders handle the pickup and delivery. You just pack the item.

-
- Future-Proof: The Govt is rolling out vending machines to fight stigma. Partnering with us puts your pharmacy ahead of the curve.

We would welcome the opportunity to discuss a commission structure.

Sincerely,

Naeem Abdul-Aziz (CEO)

Access Discreetkit Ltd
